

# CAL BLEND SOILS INC.

<u>PRODUCT</u>	<u>DESCRIPTION</u>	<u>PRICE</u> per cubic yard
<b>COMPOST</b>	A combination of wood shavings & a small percentage of horse humus, composted & screened. 99% weed free.	11.00
<b>LEAFPOST</b>	Primarily tree leaves, with very little wood or branch material. Composted to a deep, rich dark color. A premium organic amendment.	21.00
<b>FINE LEAFPOST</b>	Exceptionally nutrient rich, great for amending vegetable & flower gardens. A <b><u>premium seed topper</u></b> ; 1/4" minus.	25.00
<b>SUPER FINE LEAFPOST</b>	A 3/16" minus particle size organic, derived from composted leaves. Uses range from sports turf topper to premium amendment.	40.00
<b>CACTUS MIX/ NATIVE MIX</b>	A blend of aggregates, including volcanic cinder, with a touch of organic, combine to create a growing medium that has what drought tolerant & native plants need; good drainage with adequate moisture and nutrient retention.	55.00
<b>GARDEN MIX</b>	A rich, ready-to-grow blend of our finest organics & soil.	40.00
<b>ACID COMPOST</b>	We combined our fine leafpost & bark fines. Recommended for acid loving plants such as roses, azaleas, camellias and gardenias.	35.00
<b>SOIL MIX</b>	A blend of compost & topsoil; <u>average</u> organic content 65%.	16.50
<b>HEAVY SOIL MIX</b>	Our regular soil mix with less organic & more topsoil added. An <u>average</u> ratio of 50% organic & 50% aggregate.	18.50
<b>EXTRA HEAVY SOIL MIX</b>	This well amended medium is lighter than topsoil; well suited for elevating the soil level where needed, <u>average</u> organic content 30%.	20.00
<b>AMENDED TOPSOIL</b>	Topsoil with a dash of extra organic.	23.00
<b>TOPSOIL</b>	Varies from a sandy loam to loamy sand, with a <u>slight</u> organic content.	22.00
<b>UNAMENDED TOPSOIL</b>	Fine screened sandy loam. 1/4" minus.	23.00
<b>*SUPER FINE MULCH</b>	Derived from the same well-composted wood products as our fine mulch, but more precisely screened; removing 99% of the fines, leaving only the finest wood particles. Screened particle size of 3/16"- 1/2" +/-	30.00
<b>*FINE MULCH</b>	1/2"- 2" +/- particle size provides a more refined, less coarse look.	25.00
<b>*MULCH</b>	Rough, shredded wood chips derived from local tree trimmings, well composted, dark in color. Well suited for hillside or slope applications. Screened particle size of 2"- 6" +/-	19.00
<b>*FOREST GRIND</b>	Coarsely ground tree trimmings composted to a rich dark color; 2"-10" +/-	20.00

*\*It is possible that pieces larger than specified may be present in the mulch materials.*
